5. Recipient and Categories of Recipients

Relevant employees of involved departments and associated companies, processors. Aareon uses Microsoft® Office applications (e.g. Word®, Outlook®), where support can be provided with possible access to data from outside the EU/EEA. Microsoft support is governed by the standard EU contractual clauses, which are available in the Microsoft Trust Center.

For a customer solution with SAP®/Blue Eagle, the following applies: For individual customers, SAP support is provided with worldwide support from the SAP support organization. Subcontractors with EU standard contractual clauses can be viewed in the SAP support portal. Individual customers can activate "EU Access" in the SAP support portal. For ASP and hosting customers, Aareon activates EU Access, where SAP support is provided only from the EU/EEA and Switzerland, subject to an adequacy decision by the EU Commission. In individual cases, worldwide processing within the SAP support organisation can be carried out with the consent of the customer, for which the EU standard contractual clauses apply.

For a customer solution with Microsoft® Office 365, the following applies: If the data is hosted in the Microsoft Azure Cloud or Microsoft Support is provided, it may be possible to access data from outside

the EU/EEA. For this purpose, EU standard contractual clauses apply via the Microsoft Customer Agreement and are available in the Microsoft Trust Center.

Aareon is obliged to cooperate in the fight against terrorism and carries out a data comparison with EU/US anti-terror lists and in UK also the UK anti-terror lists (sanction screening). The comparison is performed regarding the customer, not its employees. Aareon uses the AEB system for this purpose, for which support can be provided from outside the EU/EEA (UK, Singapore) if required. The UK is considered a safe third country in accordance with the EU Commission's adequacy decision, and EU standard contractual clauses apply to support from Singapore. In the case of international data transfer to or access from outside the EU, there are special risks for personal data (e.g. access by foreign intelligence agencies).

6. Storage Period

The data will be stored in compliance with the legal retention periods up to 10 years after termination of the customer relationship or performance of the sanction screening. Data that is no longer needed will be deleted. Data based on a consent will be stored until revocation. Data based on a legitimate interest will be stored for as long as the legitimate interest exists, until objection or at the latest until 6 years after the last contact with the company or the data subject.

7. Data Subject Rights

The data subject has the right of access from the controller about the personal data, rectification, erasure, restriction of processing, revocation or objection for the future, data portability and appeal to a supervisory authority.
